

OPERATIONAL GUIDELINES FOR SELF FINANCING UNITS OF NSS

1. INTRODUCTION

- 1.1. **Background:** The National Service Scheme (NSS), a voluntary and value based student youth programme is one of the major youth schemes being operated in the Ministry of Youth Affairs & Sports. It was launched during the birth centenary celebration of Mahatma Gandhi on 24th September 1969 in 37 universities involving 40,000 students in pursuance of one of the recommendations of the Education Commission, 1964-65. NSS, presently (2012-2013) has 32.5 lakh volunteers, in 299 Universities, 15,666 Colleges/Technical Institution, 10762 (+2) Schools and 42 (+2) Senior Secondary Boards/Councils and Directorates of Vocational Education. During its 43 years of fruitful existence more than 4.13 crore students have so far benefited from this largest student-volunteership programme in the world.
- 1.2. **Aims & Objectives:** The aims and objectives of the NSS are: (i) to render service to the community while studying in an educational institution; (ii) to arouse the social conscience among students; (iii) to provide them with an opportunity to work creatively and constructively with the community around the educational campus; and (iv) to put the education they receive to concrete social use; and specifically, (i) to work with and among the people; (ii) to engage in creative and constructive social action; (iii) to enhance knowledge of oneself and the community through a confrontation with reality; (iv) to use the knowledge gained in the class room in a practical way for mitigating at least some of the social problems; and (v) to gain skills in programme development to be able to be self-employed. The goals are to achieve improvement in personality, leadership potential, national outlook and a sense of civic responsibility.
- 1.3. **Motto:** The motto of the NSS is 'NOT ME BUT YOU'. This expresses the essence of democratic living and upholds the need to appreciate the other man's point of view first and to show consideration for fellow human beings. It also underlines that the welfare of the individual is ultimately dependent on the welfare of society as a whole. NSS attempts to establish meaningful linkages between "Campus and Community", "College and Village" and "Knowledge and Action".
- 1.4. **Programmes:** The basic unit of NSS consists of 50 or 100 volunteers at school/college level headed by a Programme Officer (usually a lecturer). At the University level, the NSS is looked after by Programme Coordinators (Full-time or Part-time Readers). The State Liaison Cell at the State Secretariat is fully responsible for the implementation of the scheme including timely release of grants to the NSS institutions. The NSS has two types of programmes, viz., (a) **Regular activities** and (b) **Special Camping programmes**. Under the "Regular Activities", students are expected to work as volunteers for a continuous period of two years, rendering community service for a

minimum of 120 hours per annum. The activities under Regular Programme include improvement of campuses, tree plantation, constructive work in adopted villages and slums; work in welfare institutions, blood donation, adult and non-formal education, health, nutrition, family welfare, AIDS awareness campaign etc.

Under Special Camping Programme, a camp of 07 days' duration is conducted every year in the adopted area on a specific theme like "Youth Against Famine", "Youth Against Dirt and Disease", "Youth for Development", "Youth for Mass Literacy", etc. New Dimensions have been added in recent years by integrating AIDS Awareness Campaign for student youth under "Universities Talk AIDS/Student Talk AIDS" Programme and "Watershed Management and Wasteland Development Programmes" into the NSS Programme. The theme for the Special Camping Programme for the years 2006-2007 to 2008-2009 was "Healthy Youth for Healthy India". **The Special Camping theme for the year 2012-13 was spread over five core areas given below:**

1. **Environment including preservation of natural resources and conservation of cultural/historical heritage;**
2. **Health, public sanitation and personal hygiene;**
3. **Rural development including project identification, programme formation, implementation and evaluation;**
4. **Education and literacy including legal awareness; and**
5. **Emergency interventions including trauma care, initial counseling and data collection**

2. THE RATIONALE

- 2.1. Education is a price commodity, especially in India. For every child in school or college there are much more of them, who either could not make it or who never get chance to make it. The higher is the level; the higher is the competition. This makes it incumbent upon a student of higher learning to return something to the society for the opportunity he/she got at the cost of others. NSS provides one such opportunity to a student through community service to return the social debts in his/her own way.
- 2.2. Although NSS has grown 81 times during its 43 years of existence it has not even able to cover 20 percent of the student community. Nor it is possible for the government to provide fund for Universalisation of NSS. At the same time there is spurt in demand to set up new NSS units in schools and colleges without tagging to the conditionality of funding by government. There is scope to de-link NSS operation from funding for the Institutions, which are willing and capable to generate their own resource for programme activities. It is expected that this de-linking will expand the out-reach of NSS and at the same time provide space to finance public funding to more deserving and needy institutions in an equitable manner.
